

Abingdon Non Vintage Archives

Over the years, Abingdon has produced a number of Non Vintage (NV) wines. Due to our small scale and the added complexity it brings to a wine, we often blend a newer vintage wine with a barrel aged older vintage. Unfortunately, the wine & spirit Board of South Africa does not allow us to put the vintages on the label and this can be rather confusing for those of you who have collected our wines over the years!

We hope this can help you reference your bottles at home!

To find the SAWIS batch number, take a look at the certification seal on the neck of your bottles.
